

Liebherr Customer Service

Original Liebherr Filter Packages

EN

LIEBHERR

Original Liebherr Filter Packages

The right package for every machine

Original Liebherr filter packages are optimally harmonized for each individual type of machine and their respective service interval. These are available for:

- Crawler cranes
- Duty cycle crawler cranes
- Deep foundation machines

Convenience

All relevant filters for each service interval are grouped under one article number. This simplifies the ordering process for you and therefore saves time.

Cost-Effectiveness

Up to 10% of the costs can be saved through ordering filter packages as opposed to individual parts. Furthermore, thanks to the proven Liebherr quality the service intervals are extended and costs are thus reduced.

Long Service Life

Only original Liebherr filters are used in our packages. These are manufactured according to Liebherr's high quality standards and therefore promote a long service life of your machine.

Availability

Liebherr's worldwide service network ensures shortest delivery times and highest availability through local stocking of parts, thus keeping service times to a minimum.

Original Quality

Original Liebherr filters are subject to comprehensive tests and ensure high performance so minimizing the risk of unscheduled downtime.

Partnership

The correct filter package can be easily ordered in the online portal MyLiebherr. Your service partner will be pleased to assist with selecting and ordering and to advise regarding service intervals.

The Liebherr Group of Companies

Wide Product Range

The Liebherr Group is one of the largest construction equipment manufacturers in the world. Liebherr's high-value products and services enjoy a high reputation in many other fields. The wide range includes domestic appliances, aerospace and transportation systems, machine tools and maritime cranes.

Exceptional Customer Benefit

Every product line provides a complete range of models in many different versions. With both their technical excellence and acknowledged quality, Liebherr products offer a maximum of customer benefits in practical application.

State-of-the-art Technology

To provide consistent, top quality products, Liebherr attaches great importance to each product area, its components and core technologies. Important modules and components are developed and manufactured in-house, for instance the entire drive and control technology for construction equipment.

Worldwide and Independent

Hans Liebherr founded the Liebherr family company in 1949. Since then, the family business has steadily grown to a group of more than 130 companies with nearly 44,000 employees located on all continents. The corporate headquarters of the Group is Liebherr-International AG in Bulle, Switzerland. The Liebherr family is the sole owner of the company.
