

FM 200 DF

FEATURES

- Static sand recovery unit on one chassis
- Centrifugal slurry pump
- Hydrocyclone
- Collection tank
- Dry feed boiler box
- 14 x 6 dewatering screen
- Produces 2 products from single dry feed
- Designed to work in conjunction with Terex Washing Systems range

FEATURES AND BENEFITS

- Underflow rubber lined slurry pump
- One rubber lined hydrocyclone which classifies at approximately 75µm (200 mesh)
- Self regulating cyclone tank complete with built in float system
- High frequency 14' x 6' (4.3m x 1.8m) dewatering screen fitted with polyurethane modular mats
- Maximum recovery of material above 75µm (200 mesh)
- Removes silt, slimes and clays below 75µm (200 mesh)
- Removes water following dewatering operation to 15% of residual water content
- Major reduction in saleable material discharging to the pond, thus reducing pond maintenance and saving money
- Heavy-duty robust construction ideal for rugged operating environment
- Low maintenance
- All wear areas rubber lined
- Walkway and access stairs
- Quick assembly time
- Breaks down into one 40' (12m) container
- Approx 80-120 tph

APPLICATIONS

- All forms of concrete, mortar and asphalt sands
- Quarry dust / crushed fines
- Lake and beach sands
- Silica sand for glass industry
- Golf course sands
- Filter bed sands
- Recycled materials
- Iron ore
- Most materials which need to be washed

OPTION

- Electrical control panel

SPECIFICATIONS

TECHNICAL DIMENSIONS

WORKING LENGTH	7.3m (24')
WORKING WIDTH (INC WALKWAY)	4.3m (14' 3")
WORKING HEIGHT	7.4m (24' 2")
FEED HEIGHT	4m (13')
PRODUCT DISCHARGE HEIGHT	1.8m (5' 10")
WASTE WATER DISCHARGE HEIGHT	0.6m (2')
TOTAL WEIGHT(EMPTY)	15000kg (33069lb)
TOTAL WEIGHT(WORKING)	23000kg (50706lb)

CYCLONE

- One G4 660 hydrocyclone
- Spigot discharge
- All wear areas rubber lined
- Underflow collection box
- Pressure flange with pressure gauge and protector
- 200mm (8") rubber lined slurry delivery hose

Rubber lined sealed slurry transfer pipe complete with heavy duty clamps

Rubber lined spigot

CENTRIFUGAL PUMP

- Size 200/150mm (Heavy duty rubber lined)
- Motor 30kW (40hp) (IP55 enclosure)
- Pump capacity 250m³
- Abrasion resistant liners
- Moulded rubber impeller
- Excellent serviceability

Pump drain for cold climate applications

Easy access for ease of maintenance

Split dewatering screen rinsing on one side and dewatering on the other

Fully rubber lined for increased wear life

CHASSIS

Self regulating cyclone tank complete with built in float system

Heavy duty steel construction

Easy access to serviceable areas

Walkway with steps and handrails

Dry feed box

Integrated tank drains for ease of maintenance

Float system for self regulation of tank water level

Walkway, steps and handrails included standard with all machines

SPLIT DEWATERING SCREEN

Size: 4.3m x 1.8m (14' x 6')

Vibratory motors: 6.2kW (8.3HP) 2 off (960RPM)

Screen Aperture 0.5mm (0.02") on dewatering side. Up to 8mm (0.3") aperture on rinsing side of screen

Exceptional dewatering performance

Compression fit modular screen decks

Side protection liners

Marshmellow® screen mounts for smoother running

Plastic lined discharge chute

Low noise vibrating motor

High efficiency rubber screen mount for minimal vibration

Sloped back panel for maximum water removal

Modular screen decks and side protection liners

Plastic lined chute
